

Startup Business Plan

(Mohammad Sarfraz Khan)

Startup Name:

CareerSathi

(Sathi means "companion" or "guide" in Hindi, symbolizing a trusted partner in a student's career journey.)

Tagline:

"Guiding Futures, Building Careers"

(This tagline emphasizes trust, guidance, and the promise of a successful career.)

Concept Overview:

CareerSathi is an education and career counseling startup that provides school-level seminars, mentorship, and college selection guidance to students from classes 8 to 12. The platform connects students with experienced mentors (alumni, professionals, and industry experts) who share their real-life experiences and guide students in choosing the right career path. Additionally, CareerSathi offers college tours, skill development programs, internships, and job counseling to ensure students are well-prepared for their future.

Core Problem Statement:

Lack of Authentic Career Guidance: Many students in India (classes 8–12) are unaware of the right career paths, subjects to choose, or the skills required for their desired professions.

Misleading Counseling: Fraudulent counselors often misguide students for monetary gains, leading to wrong career choices and wasted time/money.

Skill Gap:

- Students lack practical skills (like coding, communication, etc.) required for the job market.

Limited Exposure:

- Students and parents are unaware of the realities of college life, faculty quality, and job opportunities in various fields.

Solution:

- CareerSathi aims to solve these problems by providing:

Authentic Career Counseling:

- Through seminars, mentorship, and college tours.

Skill Development:

- Offering courses and internships to bridge the skill gap.

Transparency:

- Honest feedback from alumni and professionals about colleges and careers.

Affordability:

- Low-cost services to make counseling accessible to all.

Key Features:**1. School-Level Seminars:**

- Target Audience: Students from classes 8 to 12.

Objective:

- To create awareness about career options, subject choices, and market demands.

Process:

- Invite alumni and professionals (engineers, doctors, MBAs, etc.) to share their career journeys.

Cover topics like:

1. What is engineering, medicine, MBA, etc.?
2. How to choose the right subjects after 10th and 12th?
3. What are the career opportunities in different fields?
4. How to balance studies, sports, and extracurricular activities?

Revenue Model:

- Charge schools ₹5,000 to ₹10,000 per seminar. Pay guest speakers ₹1–2 lakh for a day-long seminar across multiple schools.

2. Mentorship Program:

Objective:

- Provide personalized guidance to students.

Process:

1. Connect students with mentors who are currently studying or have graduated from the colleges they are interested in.
2. Provide honest feedback about colleges, faculty, facilities, and campus life.
3. Offer virtual or in-person sessions with mentors for personalized guidance.

Revenue Model:

- Charge students ₹2,500–₹3,000 per session. Offer subscription plans (e.g., ₹99/year) for access to multiple sessions.

3. College Selection and Tours:

Objective:

- Help students shortlist colleges based on their interests, budget, and career goals.

Process:

1. Organize college tours for students and parents to visit campuses and get a firsthand experience.

2. Provide college reviews from current students and alumni.
3. Revenue Model: Charge a nominal fee for organizing college visits.

4. Skill Development and Internships:

Objective:

- Prepare students for their careers by offering practical skills and experience.

Process:

1. Offer skill development courses (coding, communication, etc.).
2. Provide internship opportunities to help students gain practical experience.
3. Conduct mock interviews and coding practice sessions for job readiness.

Revenue Model:

- Offer paid courses and charge for internship placements.

5. Online Platform:

Objective:

- Provide a centralized platform for students to access resources and connect with mentors.

Features:

1. Book mentorship sessions.
2. Access career resources (videos, articles, etc.).
3. Join virtual seminars and workshops.

Revenue Model:

- Offer a subscription model (e.g., ₹99/year) for access to exclusive content and mentorship.

Revenue Model:

- School Seminars: Charge schools ₹5,000 to ₹10,000 per seminar.

- **Mentorship Sessions:** Charge students ₹2,500–₹3,000 per session.
- **College Tours:** Charge a nominal fee for organizing college visits.
- **Skill Development Courses:** Offer paid courses in coding, communication, and other skills.
- **Partnerships:** Collaborate with colleges, coaching institutes (like PW, Allen), and companies for affiliate commissions.

Advantages:

- **Authentic Guidance:** Real-life experiences from mentors and alumni.
- **Affordable:** Low-cost services to make counseling accessible to all.
- **Holistic Approach:** Covers career counseling, skill development, internships, and job readiness.
- **Trustworthy:** Focus on transparency and honesty to build trust with students and parents.
- **Scalable:** Can expand to multiple cities and schools with the help of technology.

Challenges and Solutions:

- **Challenge:** Ensuring mentors are reliable and available.
 - **Solution:** Create a mentor onboarding process with clear guidelines and incentives.
- **Challenge:** Building trust with students and parents.
 - **Solution:** Share testimonials and success stories to establish credibility.
- **Challenge:** Scaling the business while maintaining quality.
 - **Solution:** Use technology (AI, chatbots) to automate processes and ensure consistency.
- **Challenge:** Competition from existing career counseling services.
 - **Solution:** Differentiate by offering affordable, transparent, and personalized services.

Disadvantages:

- **Job Guarantee:** Students may expect guaranteed jobs after counseling, which is not always possible.
- **Mentor Availability:** Managing mentor schedules and ensuring consistent availability.

- **Fraud Prevention:** Ensuring no fraudulent practices in college admissions or counseling.

Suggestions for Improvement:

- **Gamification:** Add interactive tools like career simulations and quizzes to engage students.
- **Parent Involvement:** Include sessions for parents to help them understand career options and support their children.
- **Global Opportunities:** Expand services to include guidance for studying abroad and international job markets.
- **Feedback Mechanism:** Regularly collect feedback from students and parents to improve services.
- **Partnerships:** Collaborate with NGOs and government programs to reach underprivileged students.

Next Steps:

- **Build a Team:** Hire career counselors, mentors, and tech developers.
- **Develop the Platform:** Create a website and app for booking sessions, accessing resources, and connecting with mentors.
- **Pilot Program:** Start with a few schools and colleges to test the concept.
- **Marketing:** Use social media, school partnerships, and word-of-mouth to promote CareerSathi.
- **Scale Up:** Expand to more schools, colleges, and cities.

Conclusion:

CareerSathi has the potential to revolutionize career counseling in India by providing honest, affordable, and personalized guidance to students. By focusing on transparency, mentorship, and skill development, you can help students make informed decisions and build successful careers.

1. Business Model Deep Dive

1.1 Target Audience Analysis

Your primary audience consists of:

- **Students (Classes 8–12):** They need structured career guidance, mentorship, and exposure to different career options.
 - **Parents:** Many career decisions in India are parent-driven, so engaging them is crucial.
 - **Schools & Educational Institutions:** They act as key partners and customers for seminars and counseling sessions.
 - **EdTech & Coaching Institutes:** These entities can be strategic partners for additional revenue.
 - **Colleges & Universities:** Collaboration for college tours and verified alumni feedback.
-

1.2 Revenue Model Expansion

You have multiple revenue streams, but **let’s make them more robust:**

| Service | Revenue Strategy | Pricing Model | Scalability Factor |
|---------------------------|---|-----------------------------|-------------------------------|
| School Seminars | Charge schools for career guidance sessions | ₹5,000–₹10,000 per seminar | Expand to tier-2 & 3 cities |
| Mentorship Program | One-on-one career mentoring with professionals | ₹2,500–₹3,000 per session | Subscription model (₹99/year) |
| College Selection & Tours | Organize student & parent visits | ₹500–₹2,000 per visit | Partner with universities |
| Skill Development Courses | Online & offline skill-based training | ₹1,000–₹5,000 per course | Certification & partnerships |
| Internships & Job Prep | Connect students with internships & mock interviews | ₹2,000–₹5,000 per placement | Tie-ups with companies |

| | | | |
|---------------------------|--|-----------------------|---|
| Online Subscription Model | Career resources, mentorship, & tools | ₹99–₹299/year | AI-based career assessments |
| Affiliate Partnerships | Earn commissions from colleges/coaching institutes | Revenue-sharing model | Work with brands like Byju's, PW, Allen |

1.3 Scaling the Business

CareerSathi has strong **growth potential** if structured efficiently. Key strategies include:

Short-Term (0-1 Year): Pilot & Brand Awareness

- Start with **10-15 schools** for pilot testing.
- Partner with **100+ mentors** for early engagement.
- Develop a **basic website/app** for student bookings.
- Market through **social media, influencers, and school tie-ups**.

Mid-Term (1-3 Years): Expansion & Automation

- Scale up to **multiple cities (Tier-2 & 3 regions)**.
- Develop an **AI-based career suggestion tool**.
- Offer **customized mentorship packages for different student levels**.
- Form partnerships with **coaching institutes (Allen, PW, Unacademy, etc.)**.

Long-Term (3-5 Years): National & Global Reach

- Introduce **career guidance for studying abroad**.
- Offer **scholarship guidance & financial aid counseling**.
- Expand into **corporate mentorship for college graduates**.

2. Technology & Platform Strategy

CareerSathi can be a **hybrid model** (offline + online), but the **technology platform is crucial** for scaling.

2.1 Key Features of the Online Platform

- **Career Assessment Tool:** AI-powered quizzes and psychometric tests to suggest career paths.
- **Mentor Matching Algorithm:** AI-driven system to connect students with relevant mentors.
- **Webinars & Video Content:** Pre-recorded sessions from industry experts.
- **College Review Platform:** Verified alumni reviews on colleges, faculty, and placements.
- **Skill Development Hub:** Courses on soft skills, coding, finance, communication, etc.
- **Parent Dashboard:** Separate section for parents to track student progress.

2.2 Gamification & Engagement

To increase student engagement, add:

- **Interactive Career Games:** "Which Career Fits You?" quiz.
- **Leaderboards & Rewards:** Earn points for completing modules.
- **AI Chatbot for FAQs:** A chatbot answering student career-related queries.

2.3 Monetization via EdTech Integrations

- **Partner with Udemy/Coursera for courses** (earn referral commissions).
 - **Integrate AI-based resume builders & LinkedIn optimization tools.**
 - **Sell premium career reports with detailed insights (₹299–₹999/report).**
-

3. Competitive Analysis & Differentiation

| Competitor | Strengths | Weaknesses | CareerSathi Differentiation |
|------------------------|------------------------------|--|---|
| Byju's, Unacademy | Large audience, strong brand | Expensive, focused on academics, not career guidance | Affordable, real mentorship, career-focused |
| Career360, Shiksha | College reviews, counseling | Paid promotions lead to bias | Transparent & unbiased alumni reviews |
| Private Counselors | One-on-one focus | Expensive, limited reach | Scalable online model + offline engagement |
| Government Initiatives | Free services | Limited availability, lack of expert mentors | Better quality guidance, mentor network |

4. Risk Management & Challenges

| Challenge | Potential Risk | Solution |
|---------------------------------------|--|--|
| Mentor Reliability | Unresponsive mentors | Have a strict onboarding & rating system |
| Scaling to More Schools | Schools hesitant to pay | Offer free trial sessions initially |
| Building Trust with Parents | Parents skeptical of career choices | Conduct parent webinars & share testimonials |
| Competition from Large Players | EdTech giants entering career counseling | Focus on affordability & personalized mentorship |

5. Partnerships & Collaborations

5.1 School & College Tie-Ups

- Partner with **schools & coaching institutes** for exclusive seminars.
- Offer **college-sponsored career fairs** for student exposure.

5.2 Corporate & NGO Collaborations

- Work with **tech companies** for internship placements (e.g., TCS, Infosys, startups).
- Partner with **NGOs** to provide free counseling for underprivileged students.

5.3 Global Expansion Strategy

- Include **guidance for international universities & scholarships** (US, UK, Canada, etc.).
 - Offer **career mentorship for Indian students studying abroad**.
-

6. Marketing & Growth Strategy

6.1 Digital Marketing Plan

- **Social Media Marketing:** Instagram, LinkedIn, and YouTube career guidance content.
- **Influencer Collaborations:** Work with career influencers and EdTech YouTubers.
- **SEO & Blog Strategy:** Write about career paths, college reviews, and job market trends.
- **Referral Program:** Offer discounts for students who refer their friends.

6.2 Offline Marketing Plan

- **School & College Seminars:** Direct interaction with students.
 - **Educational Fairs & Events:** Set up CareerSathi booths.
 - **Print & Newspaper Ads:** Target parents through regional newspapers.
-

7. Final Thoughts & Next Steps

7.1 Immediate Action Plan (Next 3-6 Months)

- ✓ Build a **small mentor network** & onboard first 100 students.
- ✓ Conduct **pilot seminars** in 10–15 schools.
- ✓ Develop a **MVP (minimum viable product) website & app**.
- ✓ Run **targeted digital ads on social media**.

7.2 Long-Term Vision (3-5 Years)

- 🚀 Expand to **50+ cities** in India.
 - 🚀 Introduce **AI-based career planning tools**.
 - 🚀 Reach **1 million+ students** through mentorship & guidance.
 - 🚀 Form **global university partnerships** for international counseling.
-

Conclusion: The Future of CareerSathi

CareerSathi has the potential to **revolutionize career counseling in India** by bridging the **awareness, guidance, and skill gap** for students. By focusing on **affordable, transparent, and high-quality mentorship**, the startup can **scale nationwide and internationally** to become the **leading career counseling platform**.

CareerSathi: Revolutionizing Career Counseling in India

Business Plan with Marketing, Scaling, and Investor Strategy

1. Startup Overview

1.1 What is CareerSathi?

CareerSathi is a **career counseling and mentorship startup** designed for **students from classes 8 to 12**. It connects students with **mentors (alumni, professionals, and industry experts)** to provide **authentic career guidance, skill development programs, and internship opportunities**.

1.2 Core Problem Statement

- **Lack of Career Awareness:** Most students don't have proper guidance on career choices.
- **Misleading Counseling:** Many fake consultants misguide students for monetary gains.
- **Skill Gap:** Students lack **practical skills** (coding, communication, etc.).
- **Limited Exposure:** Parents & students don't know the realities of college life, job markets, and required skills.

1.3 Our Solution

- **Authentic Career Counseling** via **seminars, mentorship, and college tours**.
 - **Skill Development** through online courses and internship programs.
 - **Transparency:** Honest feedback from mentors & alumni.
 - **Scalability:** A **tech-driven model** for online career guidance across India.
-

2. Monetization & Revenue Model

| Service | Revenue Strategy | Pricing Model | Scalability Factor |
|--------------------------------------|---|-----------------------------|-------------------------------|
| School Seminars | Charge schools for career guidance sessions | ₹5,000–₹10,000 per seminar | Expand to tier-2 & 3 cities |
| Mentorship Program | One-on-one career mentoring with professionals | ₹2,500–₹3,000 per session | Subscription model (₹99/year) |
| College Selection & Tours | Organize student & parent visits | ₹500–₹2,000 per visit | Partner with universities |
| Skill Development Courses | Online & offline skill-based training | ₹1,000–₹5,000 per course | Certification & partnerships |
| Internships & Job Prep | Connect students with internships & mock interviews | ₹2,000–₹5,000 per placement | Tie-ups with companies |
| Online Subscription Model | Career resources, mentorship, & tools | ₹99–₹299/year | AI-based career assessments |

| | | | |
|-------------------------------|--|-----------------------|---|
| Affiliate Partnerships | Earn commissions from colleges/coaching institutes | Revenue-sharing model | Work with brands like Byju's, PW, Allen |
|-------------------------------|--|-----------------------|---|

3. How to Market CareerSathi for Free via Social Media?

3.1 Social Media Growth Strategy

Since **advertising is expensive**, we will use **organic growth strategies** to promote CareerSathi **for free** using social media.

3.2 Platform-Wise Strategy

1 Instagram & Facebook – 1 Million Students Reach Target

- **Reels & Short Videos:**
 - Daily **career tips & college guidance videos** (30-60 sec).
 - Success stories of **students who got help from CareerSathi**.
- **Free Career Quizzes:** "Which career suits you?" quizzes to engage students.
- **Instagram Live: Weekly Q&A sessions** with mentors & industry experts.

2 YouTube (Long-Form Content) – The Biggest Free Growth Engine

- **Detailed College Reviews:** Honest **video reviews** of top colleges in India.
- **Career Paths Explained:** "How to become an engineer/doctor/lawyer" guides.
- **Success Stories:** Real student success case studies.
- **Webinar Recordings:** Upload **free mentorship sessions** for passive audience growth.

3 LinkedIn & Twitter (Investor & Mentor Outreach)

- **Build credibility** by sharing **success stories & impact reports**.

- **Connect with mentors, career experts, and corporate partners.**
- **Hashtag strategy:** Use trending hashtags like **#CareerGuidance** **#Mentorship** **#FutureLeaders**.

4 WhatsApp & Telegram Groups – Direct Student & Parent Engagement

- Create **WhatsApp groups** for students to discuss career doubts.
- Share **daily tips, college news, and career advice.**
- Use **Telegram for community-building & free Q&A sessions.**

4. Scaling Strategy: How to Expand CareerSathi Across India?

4.1 How to Scale Beyond Physical Seminars?

Since we can't conduct **seminars everywhere**, we will **expand strategically** using:

| Scaling Method | How It Works? |
|-----------------------------------|---|
| Hire Local Teams in Cities | Train teams to conduct seminars in new cities. |
| Online Webinars | Shift 80% of career counseling to virtual mode (free & paid). |
| Ambassador Program | Recruit top students as "CareerSathi Ambassadors" to promote us. |
| AI-Based Career Guidance | Use AI to suggest careers based on personality & interests. |

5. Investor Pitch: Why This Startup Will Be Profitable?

5.1 Why Should Investors Trust CareerSathi?

- **Huge Market Size:** 3 Crore+ students in **classes 8-12** in India.
- **Recurring Revenue:** **Subscription model** ensures long-term profits.
- **Low Cost, High Impact:** Scalable online career guidance = massive reach with low costs.
- **EdTech Partnerships:** Potential to collaborate with Byju's, Unacademy, and coaching institutes.
- **Corporate Tie-Ups:** Companies pay for job-ready students, creating a recruitment ecosystem.

5.2 Financial Projection (3-Year Plan)

| Year | Revenue Target | Profit Estimate | User Base |
|--------|----------------|-----------------|------------------|
| Year 1 | ₹50 Lakhs | ₹15 Lakhs | 50,000 Students |
| Year 2 | ₹2 Crores | ₹70 Lakhs | 2Lakh Students |
| Year 3 | ₹10 Crores | ₹3 Crores | 10Lakh+ Students |

6. Investor Exit Strategy: When & How Will They Profit?

| Exit Option | How It Works? |
|-------------|---------------|
|-------------|---------------|

| | |
|---|--|
| Acquisition by EdTech Giant | Byju's, Unacademy, or Vedantu may acquire "CareerSathi". |
| IPO (Stock Market Listing) | CareerSathi can go public after 3-5 years of growth. |
| Subscription-Based Recurring Revenue | Investors get consistent profits from CareerSathi's paid users. |

7. Next Steps (0-6 Months Plan)

- ✓ **Hire a Core Team** – Recruit 10-15 mentors & career counselors.
 - ✓ **Start a Pilot Program** – Conduct seminars in 20 schools.
 - ✓ **Launch a YouTube Channel** – Start with 100+ career guidance videos.
 - ✓ **Build the Online Platform** – AI-powered career guidance + mentor booking.
 - ✓ **Grow Social Media Presence** – Reach 1 Million+ students via Instagram, WhatsApp, and YouTube.
-

Conclusion:

Why "CareerSathi" is the Future of Career Counseling?

- 🎯 **CareerSathi = Affordable + Scalable + Transparent + Profitable.**
- 🎯 **Solves a real problem (career confusion among students).**
- 🎯 **EdTech growth = Investors get high ROI.**
- 🎯 **Social media + AI ensures massive reach at low cost.**

CareerSathi -

Startup Leadership Structure & Responsibilities

1. Sarfraz (Founder & CEO - Chief Executive Officer)

Key Responsibilities:

- ✓ **Vision & Strategy:** Define the long-term vision and direction of CareerSathi.
- ✓ **Investor Relations:** Pitch to investors and secure funding for growth.
- ✓ **Business Growth:** Ensure expansion into more schools, colleges, and cities.
- ✓ **Partnerships:** Collaborate with EdTech companies (Byju's, Unacademy, etc.), coaching institutes, and corporations.
- ✓ **Decision-Making:** Oversee all departments and ensure smooth execution of business plans.
- ✓ **Team Leadership:** Motivate and manage the core team to execute the vision.

Daily/Weekly Tasks:

-  Attend investor meetings, secure funding, and build partnerships.
 -  Review performance reports from all departments.
 -  Represent CareerSathi in media, webinars, and public events.
 -  Ensure the company is moving in the right strategic direction.
-

2. CMO - Chief Marketing Officer (Marketing & Growth Head)

Key Responsibilities:

- ✓ **Social Media Growth:** Build CareerSathi's brand using Instagram, YouTube, LinkedIn, and WhatsApp.
- ✓ **Content Strategy:** Create career guidance videos, success stories, and interactive posts.
- ✓ **Paid & Organic Marketing:** Run Google Ads, Instagram ads, and SEO strategies.
- ✓ **Branding & PR:** Get media coverage, collaborate with influencers,

and increase visibility.

✓ **Lead Generation:** Develop strategies to attract more students, parents, and schools.

Daily/Weekly Tasks:

- 📌 Plan and execute marketing campaigns.
 - 📌 Track and analyze social media engagement & ad performance.
 - 📌 Work with the tech team to optimize website & app for SEO.
 - 📌 Handle school tie-ups & offline marketing strategies.
-

3. CTO - Chief Technology Officer (Tech & Product Head)

Key Responsibilities:

✓ **Develop & Manage Website & App:** Ensure smooth functionality, UI/UX design, and security.

✓ **AI-Powered Career Counseling:** Work on AI-based recommendation systems.

✓ **Mentor-Student Matching System:** Automate mentor connections based on student needs.

✓ **Payment & Subscription Management:** Integrate secure payment gateways for monetization.

✓ **Data Security & Scalability:** Ensure CareerSathi can handle thousands of students simultaneously.

Daily/Weekly Tasks:

- 📌 Oversee app & website development.
 - 📌 Monitor platform performance and security.
 - 📌 Fix bugs & continuously improve the user experience.
 - 📌 Work on AI-based features for automated counseling.
-

4. CFO - Chief Financial Officer (Finance & Revenue Head)

Key Responsibilities:

✓ **Financial Planning:** Track revenue, expenses, and funding requirements.

✓ **Pricing Strategies:** Ensure competitive pricing for mentorship,

seminars, and subscriptions.

- ✓ **Investor Reporting:** Provide financial reports for potential investors.
- ✓ **Profitability & Budgeting:** Optimize costs and maximize profits.
- ✓ **Monetization Strategies:** Explore new revenue streams like ads, partnerships, and premium services.

Daily/Weekly Tasks:

- 📌 Track daily expenses and revenue.
 - 📌 Prepare financial reports & investor pitch decks.
 - 📌 Optimize pricing models to increase profitability.
 - 📌 Work with the marketing team to analyze ROI from ads & promotions.
-

5. COO - Chief Operating Officer (Operations & Execution Head)

Key Responsibilities:

- ✓ **School & College Tie-Ups:** Establish relationships with schools, colleges, and educational institutions.
- ✓ **On-Ground Execution:** Ensure smooth execution of seminars and events.
- ✓ **Mentor Management:** Recruit and onboard mentors, alumni, and professionals.
- ✓ **Customer Support:** Handle student & parent queries and feedback.
- ✓ **Team Coordination:** Work with other departments to ensure smooth execution.

Daily/Weekly Tasks:

- 📌 Call and meet with schools, colleges, and career experts.
 - 📌 Arrange logistics for career seminars and mentorship programs.
 - 📌 Manage mentor onboarding and track student engagement.
 - 📌 Ensure the operational efficiency of the entire company.
-

Additional Key Teams (Non-Co-Founder Roles in the Future)

- 📌 **HR (Human Resources) Team:** Hire and manage career counselors, mentors, and tech developers.

 **Sales Team:** Convert schools, parents, and students into paying customers.

 **Customer Support Team:** Provide assistance to students and parents via chat, calls, and email.

How This Structure Ensures CareerSathi's Success?

 **Clear Roles & Responsibilities:** Every co-founder has a well-defined role, reducing confusion and boosting productivity.

 **Scalability:** This structure allows **CareerSathi to expand nationally without operational issues.**

 **Efficiency & Growth:** Each department will focus on **one key business aspect, ensuring steady growth.**

 **Investor Confidence:** Having a strong leadership team **increases investor trust and funding opportunities.**

Software Requirements Specification (SRS)

Project Name: CareerSathi Website and Application

Version: 1.0

Date: [Insert Date]

1. Introduction

1.1 Purpose

- The purpose of this document is to outline the requirements for the development of the CareerSathi website and mobile application. The platform will provide career counseling, mentorship, college selection guidance, skill development, and internship opportunities to students.

1.2 Scope

- The CareerSathi platform will:
- Provide school-level seminars and mentorship programs.
- Offer college selection guidance and college tours.
- Deliver skill development courses and internship opportunities.
- Include an online platform for students, parents, mentors, and schools to interact.

1.3 Target Audience

- Students: Classes 8 to 12, college students, and career switchers.
- Parents: Seeking guidance for their children's education and career.
- Mentors: Alumni, professionals, and industry experts.
- Schools/Colleges: Institutions partnering with CareerSathi for seminars and counseling.

2. Functional Requirements

2.1 User Roles

1. Students:
 - a. Register and create a profile.
 - b. Attend seminars and mentorship sessions.
 - c. Access career resources and skill development courses.

d. Book college tours and internships.

2. Parents:

- a. Register and create a profile.
- b. Access resources to guide their children's career choices.
- c. Attend seminars and interact with mentors.

3. Mentors:

- a. Register and create a profile.
- b. Conduct seminars and mentorship sessions.
- c. Provide feedback on colleges and career paths.

4. Schools/Colleges:

- a. Register and create a profile.
- b. Schedule seminars and workshops.
- c. Access student performance and feedback reports.

5. Admin:

- a. Manage user accounts and profiles.
- b. Monitor seminars, mentorship sessions, and college tours.
- c. Generate reports and analytics.

2.2 Features

2.2.1 Student Features

- Career Assessment: Take quizzes to identify strengths, interests, and career paths.
- Seminar Registration: Register for school-level seminars.
- Mentorship Booking: Book one-on-one sessions with mentors.
- College Selection: Shortlist colleges and access reviews.
- Skill Development: Enroll in courses (coding, communication, etc.).
- Internship Opportunities: Apply for internships.
- College Tours: Book and attend college tours.

2.2.2 Parent Features

- Resource Access: Access articles, videos, and guides.
- Seminar Registration: Register for seminars.
- Mentorship Booking: Book sessions with mentors for their children.

2.2.3 Mentor Features

- Profile Management: Create and update profiles.
- Seminar Hosting: Conduct seminars and workshops.
- Mentorship Sessions: Provide one-on-one guidance to students.
- Feedback Submission: Submit feedback on colleges and career paths.

2.2.4 School/College Features

- Seminar Scheduling: Schedule seminars and workshops.
- Student Reports: Access student performance and feedback reports.

2.2.5 Admin Features

- User Management: Manage user accounts and profiles.
- Content Management: Upload and manage resources (articles, videos, etc.).
- Analytics: Generate reports on user activity, seminar attendance, and mentorship sessions.

3. Non-Functional Requirements

3.1 Performance

- The platform should support 1,000+ concurrent users without performance degradation.
- Page load time should be under 3 seconds.

3.2 Security

- Implement SSL encryption for secure data transmission.
- Use two-factor authentication (2FA) for user login.
- Ensure data privacy and compliance with GDPR and other regulations.

3.3 Scalability

- The platform should be scalable to accommodate future growth in users and features.

3.4 Usability

- The user interface should be intuitive and user-friendly.

- The platform should be accessible on desktop, tablet, and mobile devices.

3.5 Reliability

- The platform should have 99.9% uptime.
- Implement backup and recovery mechanisms to prevent data loss.

4. System Architecture

4.1 Frontend

- Technologies: React.js (for web), React Native (for mobile).
- Features: Responsive design, interactive UI, and seamless navigation.

4.2 Backend

- Technologies: Node.js, Express.js.
- Features: User authentication, database management, and API integration.

4.3 Database

- Technologies: MongoDB (NoSQL database).
- Features: Store user profiles, seminar details, mentorship sessions, and feedback.

4.4 Hosting

- Platform: AWS or Google Cloud.
- Features: Scalable cloud hosting with load balancing and auto-scaling.

5. User Interface (UI) Requirements

5.1 Homepage

- Sections: Featured seminars, mentorship programs, college tours, and skill development courses.
- Call-to-Action (CTA): Register, Login, and Explore Resources.

5.2 Student Dashboard

- Sections: Upcoming seminars, booked mentorship sessions, enrolled courses, and internship applications.

5.3 Mentor Dashboard

- Sections: Scheduled seminars, mentorship sessions, and feedback submission.

5.4 Admin Dashboard

- Sections: User management, content management, and analytics.

6. Testing Requirements

6.1 Functional Testing

- Ensure all features (registration, seminar booking, mentorship sessions, etc.) work as expected.

6.2 Performance Testing

- Test the platform under high user load to ensure performance and scalability.

6.3 Security Testing

- Conduct vulnerability assessments and penetration testing.

6.4 Usability Testing

- Gather feedback from users to improve the UI/UX.

Timeline and Milestones

| Milestone | Description | Deadline |
|-----------------------|--|---------------|
| Requirement Gathering | Finalize functional and non-functional requirements. | [Insert Date] |
| UI/UX Design | Design wireframes and prototypes. | [Insert Date] |
| Frontend Development | Develop the frontend for web and mobile. | [Insert Date] |
| Backend Development | Develop the backend and APIs. | [Insert Date] |

| | | |
|---------------------|--|---------------|
| Testing | Conduct functional, performance, and security testing. | [Insert Date] |
| Deployment | Deploy the platform on AWS/Google Cloud. | [Insert Date] |
| Post-Launch Support | Monitor performance and fix bugs. | Ongoing |

8. Conclusion

This SRS document outlines the requirements for the development of the CareerSathi website and application. By following this document, the development team can ensure that the platform meets the needs of students, parents, mentors, and schools while delivering a seamless and secure user experience.

Waterfall Model for CareerSathi Development

1. Requirements Gathering and Analysis

Objective:

- Understand and document the functional and non-functional requirements of the CareerSathi platform.

Activities:

- Conduct meetings with stakeholders (students, parents, mentors, schools, and admins).
- Gather detailed requirements for:
 - User roles (students, parents, mentors, schools, admins).
 - Features (seminars, mentorship, college tours, skill development, etc.).
 - Non-functional requirements (performance, security, scalability, etc.).
- Create the Software Requirements Specification (SRS) document.

Deliverables:

- SRS Document (already provided in the previous response).

2. System Design

Objective:

- Design the system architecture, database, and user interface based on the requirements.

Activities:

- High-Level Design (HLD):
 - Define the system architecture (frontend, backend, database, hosting).
 - Create data flow diagrams (DFDs) and entity-relationship diagrams (ERDs).
- Low-Level Design (LLD):
 - Design the database schema (tables, relationships, etc.).
 - Create wireframes and prototypes for the user interface (UI).
 - Define APIs for communication between frontend and backend.

Deliverables:

- HLD Document: System architecture, DFDs, ERDs.
- LLD Document: Database schema, UI wireframes, API specifications.

3. Implementation (Coding)**Objective:**

- Develop the CareerSathi platform based on the design documents.

Activities:

1. Frontend Development:
 - a. Develop the user interface using React.js (web) and React Native (mobile).
 - b. Implement responsive design for desktop, tablet, and mobile devices.
2. Backend Development:
 - a. Develop the backend using Node.js and Express.js.
 - b. Implement user authentication, database management, and API integration.
3. Database Development:
 - a. Set up the database using MongoDB.
 - b. Create collections for users, seminars, mentorship sessions, courses, etc.
4. Deliverables:
 - a. Fully functional frontend and backend code.
 - b. Database with all necessary collections and relationships.

4. Testing**Objective:**

- Ensure the platform is free of bugs, performs well, and meets all requirements.

Activities:

- Functional Testing:
 - Test all features (registration, seminar booking, mentorship sessions, etc.).
- Performance Testing:
 - Test the platform under high user load to ensure scalability.
- Security Testing:
 - Conduct vulnerability assessments and penetration testing.
- Usability Testing:
 - Gather feedback from users to improve the UI/UX.
- Deliverables:
 - Test Cases and Reports: Document all test cases and their results.
- Bug Fixes:
 - Resolve any issues identified during testing.

5. Deployment

Objective:

- Deploy the CareerSathi platform to a live environment for users.

Activities:

- Set up the hosting environment on AWS or Google Cloud.
- Deploy the frontend, backend, and database.
- Configure load balancing and auto-scaling for high availability.
- Perform a final round of testing in the live environment.

Deliverables:

- Live CareerSathi Platform: Accessible to users via web and mobile.

6. Maintenance

Objective:

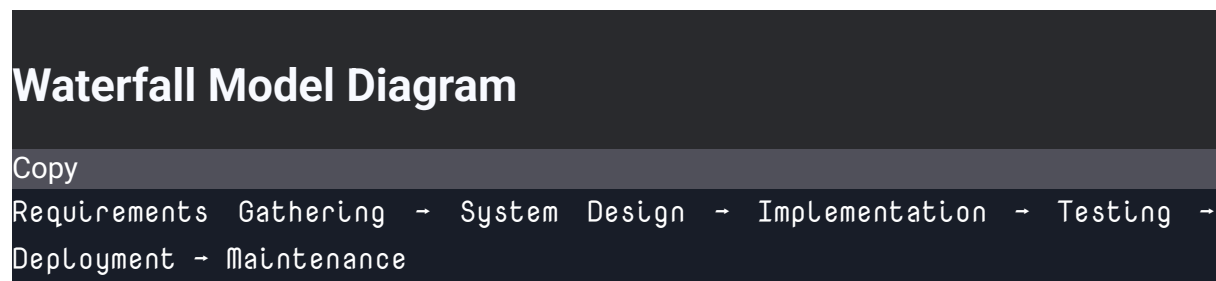

- Monitor the platform, fix bugs, and add new features based on user feedback.

Activities:

- Monitor platform performance and uptime.
- Fix any bugs or issues reported by users.
- Add new features (e.g., gamification, global opportunities, etc.).
- Regularly update the platform to ensure security and compatibility.

Deliverables:

- Updated Platform: Regular updates and improvements.
- User Support: Provide assistance to users through helpdesk or chat support.

Advantages of Using the Waterfall Model

- Clear Structure: Each phase has well-defined deliverables and milestones.
- Easy to Manage: Progress can be easily tracked and measured.
- Documentation: Detailed documentation is created at each stage.
- Suitable for Stable Requirements: Ideal for projects where requirements are well-understood and unlikely to change.

Disadvantages of Using the Waterfall Model

- Inflexible: Difficult to accommodate changes once the project has started.
- Late Testing: Testing is done only after implementation, which can lead to costly fixes.
- Not Ideal for Complex Projects: May not be suitable for projects with evolving requirements.

Conclusion

- The Waterfall Model provides a structured and systematic approach to developing the CareerSathi platform. By following this model, you can ensure that each phase of the project is completed thoroughly before moving on to the next, resulting in a high-quality and reliable platform.

1. Homepage

Purpose:

The homepage is the first point of interaction for users. It should provide an overview of the platform's features and encourage users to explore further.

Components:

Header:

Logo: "CareerSathi" with the tagline "Your Trusted Guide to a Brighter Future."

Navigation Menu: Home, About Us, Seminars, Mentorship, College Tours, Skill Development, Contact Us.

Login/Signup Button.

Hero Section:

Background Image: A group of students or a mentor-student interaction.

Headline: "Discover Your Career Path with CareerSathi."

Subheadline: "Get personalized guidance, mentorship, and skill development to achieve your dreams."

Call-to-Action (CTA) Buttons: "Explore Seminars," "Book a Mentor," "Join Now."

Features Section:

Icons with short descriptions: Seminars, Mentorship, College Tours, Skill Development.

Testimonials Section:

Quotes from students, parents, and mentors about their positive experiences.

Footer:

Quick Links: About Us, Contact Us, Privacy Policy, Terms of Service.

Social Media Icons: Facebook, Instagram, LinkedIn, Twitter.

Contact Information: Email, Phone Number.

2. Student Dashboard

Purpose:

The student dashboard provides a personalized space for students to access their booked seminars, mentorship sessions, courses, and more.

Components:

Header:

Welcome Message: "Hi, [Student Name]!"

Navigation Menu: Dashboard, Seminars, Mentorship, College Tours, Skill Development, Profile.

Overview Section:

Upcoming Seminars: List of seminars with dates, times, and "Join Now" buttons.

Booked Mentorship Sessions: List of sessions with mentor names, dates, and "Start Session" buttons.

Enrolled Courses: List of courses with progress bars and "Continue Learning" buttons.

Quick Actions:

Buttons: "Book a Seminar," "Find a Mentor," "Explore Courses," "Apply for Internships."

Notifications:

Alerts for upcoming events, session reminders, and course updates.

3. Mentor Dashboard

Purpose:

The mentor dashboard allows mentors to manage their seminars, mentorship sessions, and feedback submissions.

Components:

Header:

Welcome Message: "Hi, [Mentor Name]!"

Navigation Menu: Dashboard, Seminars, Mentorship, Feedback, Profile.

Overview Section:

Scheduled Seminars: List of seminars with dates, times, and "Start Seminar" buttons.

Upcoming Mentorship Sessions: List of sessions with student names, dates, and "Start Session" buttons.

Feedback Requests: List of feedback requests with "Submit Feedback" buttons.

Quick Actions:

Buttons: "Host a Seminar," "Accept Mentorship Requests," "Submit Feedback."

4. Seminar Registration Page

Purpose:

This page allows students and parents to register for upcoming seminars.

Components:

Header:

Navigation Menu: Home, About Us, Seminars, Mentorship, College Tours, Skill Development, Contact Us.

Seminar Details:

Title: "Career Guidance Seminar for Class 10 Students."

Date and Time: "October 15, 2023, 10:00 AM - 12:00 PM."

Description: "Learn how to choose the right subjects and career paths after Class 10."

Speaker: "Dr. John Doe, Career Counselor."

Registration Form:

Fields: Name, Email, Phone Number, School Name, Class.

CTA Button: "Register Now."

5. Mentorship Booking Page

Purpose:

This page allows students to book one-on-one sessions with mentors.

Components:

Header:

Navigation Menu: Home, About Us, Seminars, Mentorship, College Tours, Skill Development, Contact Us.

Mentor List:

Mentor Cards: Photo, Name, Profession, Expertise, "Book Session" button.

Filter Options:

Filters: Profession (Engineer, Doctor, MBA, etc.), Expertise (Career Guidance, Skill Development, etc.).

Booking Form:

Fields: Preferred Date, Preferred Time, Topic of Discussion.

CTA Button: "Confirm Booking."

6. College Tour Booking Page

Purpose:

This page allows students and parents to book college tours.

Components:

Header:

Navigation Menu: Home, About Us, Seminars, Mentorship, College Tours, Skill Development, Contact Us.

College List:

College Cards: Photo, Name, Location, "Book Tour" button.

Filter Options:

Filters: Location, Courses Offered, College Type (Engineering, Medical, etc.).

Booking Form:

Fields: Preferred Date, Number of Participants.

CTA Button: "Confirm Booking."

7. Skill Development Courses Page

Purpose:

This page allows students to explore and enroll in skill development courses.

Components:

Header:

Navigation Menu: Home, About Us, Seminars, Mentorship, College Tours, Skill Development, Contact Us.

Course List:

Course Cards: Photo, Title, Description, Duration, "Enroll Now" button.

Filter Options:

Filters: Category (Coding, Communication, etc.), Difficulty Level (Beginner, Intermediate, Advanced).

8. Admin Dashboard

Purpose:

The admin dashboard allows administrators to manage users, content, and analytics.

Components:

Header:

Welcome Message: "Hi, Admin!"

Navigation Menu: Dashboard, User Management, Content Management, Analytics, Settings.

Overview Section:

Total Users: Number of students, parents, mentors, and schools.

Upcoming Seminars: List of seminars with dates and times.

Recent Feedback: List of feedback submissions with "View Details" buttons.

Quick Actions:

Buttons: "Add New User," "Upload Content," "Generate Reports."

UI Design Tools

Wireframing: Figma, Adobe XD, Sketch.

Prototyping: InVision, Marvel.

Development: React.js (web), React Native (mobile).

Conclusion

This UI design ensures that the CareerSathi platform is user-friendly, visually appealing, and functional. By following this design, you can create a seamless experience for students, parents, mentors, and schools.
